then it is time to step into the next generation of horsemanship. Step into the world of
renowned Equine Specialist and Natural Horsemanship clinician Anna Twinney.*

JUNE 26-28, 2015

Kalispell (Kila), Montana

A Day of Animal Communication*, Saturday, June 27, 2015 - 10am - 6pm

Prerequisite to attend this workshop applies*

Make a Real Difference in the Lives of Your Animals

Animal Communication, also known as interspecies communication is the ability to telepathically connect with a being of another species and literally communicate with them using images, feelings, thoughts, emotions and even words. This life-changing ability allows you to speak with your animal, strengthen the bond between the two of you and to connect with your companion in a way you only dreamed possible. Well dream no more. Start living the reality of animal communication.

But many don't realize how powerful this tool can be.

You will spend the day with International Animal Communicator Anna Twinney and find out how you can use animal communication to not only transform your relationship with your companions but even solve some of you toughest challenges.

Through demonstrations, lectures, and hands-on exercises, Anna will share her experience and knowledge and help you:

- **Develop your innate ability to connect with your animal companions**
- **Learn the reasons behind behavioral issues and how to solve them**
- **Discover and assist your animal with health challenges**
- **Understand your animals perspective on situations**
- **Gain new insights into who they really are**
- **Conduct long distance communication with any animal**
- **And Much More...**

Animal Communication is not supernatural, but a natural way of communicating with animals and even people! Animals communicate telepathically with one another all the time, we just need to reawaken those intuitive senses to explore this extraordinary skill.

This is a heart-to-heart connection that everyone can experience if they open up, love, and listen to the animals. You will discover the beauty and harmony of the natural world, and awaken to exactly what is possible, when you understand that all living creatures are intelligent beings, with their own feelings, emotions, thoughts, desires and perceptions of life.

Awaken Your Inherent Ability to Talk to Your Animal Companion!
